# World Healers

Making the world a better place will eventually fall into the hands of children. They are the seeds that will flourish into our future. This week we will nourish ideas based on helping all aspects of planet earth, making it a better place for every living thing. Including projects to promote healing the environment, feeding those in need, building character, cooking comfort food and learning the importance of honesty, equality, and simple goodness. The field trip of the week will include volunteering for the Second Harvest Food Bank followed by a movie in theater. We are excited to see the impact your children make on their community this week.
